

MALAWI NRW WATER EFFICIENCY PROJECT

Pictorial Progress

New 6,600 m³/day Ekwendeni Treatment Plant completed in February 2021 and Hybrid Solar PV System with Solar capacity 300 kWp & BESS Capacity 1,330 kWh completed in August 2022.

New Reinforced Concrete Weir at Ekwendeni Treatment Plant

Hybrid Solar PV System with Solar Capacity 480.69kWp & BESS Capacity 1,295.77kWh at Mzuzu Treatment Plant

New Reinforced Concrete Weir downstream of Lunyangwa Dam at Mzuzu Treatment Plant completed in May 2021

MBC Booster Station – Solar Power System

Solar Inverters, Control Room and Battery Rack at MBC Booster Station

New 2,000 m³ Reinforced Concrete Tank, 375 m³ Elevated Tank and pump house at Lusangazi in Mzuzu

1,000 m³ Nkhorongo Concrete Tank - Mzuzu

1,000 m³ Marymount Concrete Tank - MZUZU

1,000 m³ Signal Hill Concrete Tank - MZUZU

Pumps and pipework at Ekwendeni Treatment Plant
